# Series D Solenoid valves VB version

2x3/2; 5/2; 5/3-way  
Manifold assembly  
Size 10,5 - 16 - 25 mm

Camozzi has developed a new series of valves for applications with limited installation space where it is necessary to have the control elements as close to the actuator as possible. Thanks to the extreme robust aluminium body, the Series D valves guarantee maximum reliability even under difficult operating conditions.

- » Flow up to 2000 Nl/min
- » Aluminium body and technopolymer end caps
- » Installation in narrow spaces
- » Electric connection also with M8 connector
